

TOXBASE® app for iPhone/iPad & Android

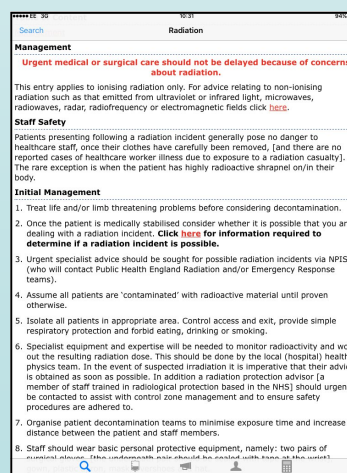

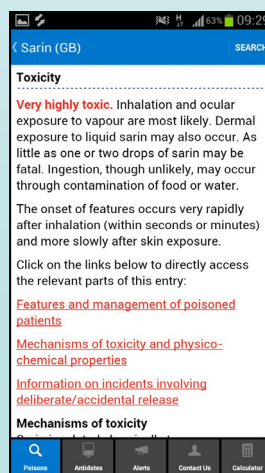

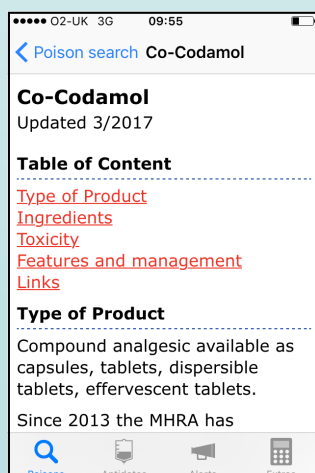

NOW FREE FOR NHS/PHE/MoD USERS
+ ONLY £6.99* per year FOR OTHER USERS
**or equivalent, via in-app purchase*

TOXBASE is the online clinical toxicology database of the UK National Poisons Information Service, providing advice on the features and management of poisoning for thousands of products and substances.

TOXBASE on the internet is currently available only to UK NHS units and by departmental/corporate subscription outside of the UK.

The TOXBASE app now offers convenient mobile access to individual healthcare professionals both inside and outside of the UK:

- **access to the full TOXBASE database for UK NHS/PHE/MoD users registration using NHS/PHE/MoD email required**
- **access to TOXBASE advice for the most common poisons and antidotes for other users**
- **access to UK TIS advice on the toxicity of drugs and chemicals in pregnancy**
- **no internet connection required to search the database**
- **updated in synch with TOXBASE so content is always accurate, relevant and up to date**

available from the app stores
